Pit scouting:

- What do they say their autonomous does
- drivetrain and wheel type
- weight
- picture
- several other things I'm not thinking of

A really fascinating white paper on where we want to get to (but are not ready yet this ye

Kindles do have wifi, bluetooth, I do not think they have NFC. wifi hotspots are not allow the kindle for a bluetooth hotspot - which would be allowed.

I think Laura and my goals that I hope would be achievable before march are:

- a kindle app that can record relevant match data
- a kindle app that can record relevant pit data
- a reasonably quick way to compile all data onto one computer (does not have t pushes, the more chance for losing data)
- Stretch goal of putting the data on a device with 3G that can backup via dropbox
- Ideally have the data be digestable by a group to help identify who we would w to know who to pick. This may be an excel spreadsheet, or maybe it's some far

We do have a github (www.github.com/Pearadox) and can access it at the school. We're people want to join robotics this year to either learn or improve in programming - and it's android app development to the team for students to do.

Thanks!

Andrew

For the Android app, What kinds of information do you survey? Trying to see what dat

I've put together a quick Survey Monkey on things I think we would want to know. See you send this to them and see if they have other ideas?

I did a 'scroll' screen capture (to get the whole survey) so you have to zoom in to see tl

What kind of Communication capabilities do the Kindles have? WiFi only or NFS (bea
